

## **Raising our climate mitigation ambitions: Toward all zero-emission vehicles**

*Marriott Union Square, 480 Sutter Street, Savoy Room, 30<sup>th</sup> Floor  
San Francisco, California  
10:00-11:30am, September 12th, 2018*

This event offers a high-level discussion on how global leaders are working to shift to zero-emission vehicles (ZEVs). The event is hosted by the ZEV Alliance, which is a collaboration of 14 governments across North America and Europe. This exchange among government leaders will highlight how jurisdictions around the world are achieving their goals to transition to all ZEVs. We will have a panel discussion of leaders who are implementing world-leading plans to ensure a steady path to a fleet of all ZEVs to help achieve climate change, air quality, and industrial clean energy leadership goals.

For this dialogue on successes and challenges in ZEV markets around the world, we will ask leaders for their top ZEV lesson learned from the past year, and their top goal for the follow year, to accelerate ZEVs. The exchange features California, the Netherlands, Norway, Québec, and the United Kingdom, which are each striving for all ZEV sales. Please come and join the dialogue!

### ***Event outline***

Welcome and opening remarks

- Ms. Carla Peterman, Commissioner, California Public Utilities Commission

Remarks on emerging ZEV market developments

- Mr. Drew Kodjak, Secretariat of ZEV Alliance

Panel discussion

*Moderator: Ms. Amy Malaki, ClimateWorks Foundation*
